

The **Nurses Obesity Network** is a diverse group of nursing organizations committed to changing the way we view, treat, and advance care for people living with obesity — including members of our own nursing profession.

There is more to weight than what we see. **Obesity is a chronic disease** which requires more than one approach to weight management and treatment. More than 2 in 5 Americans are living with obesity today, with disproportionate prevalence in communities of color, yet people living with obesity often lack the medical care they deserve.

*Collectively, we will become role models for wellbeing, champions for change, and advocates for better obesity care and treatment.*

Visit [nursesobesitynetwork.org](http://nursesobesitynetwork.org) to learn more and join the conversation.
